Experience

Junior Creative Designer Xquisite Marketing - Contract

2019-Present

Personally designed and developed a multi-phase framework to bring UX process to the company's marketing and branding centric business model. Used concepts from Agile and Waterfall to consolidate necessary steps into 5 phases that work well for our small graphic design and branding team. This iterative framework was highly successful with many clients. It eased project management and client satisfaction, while shortening turnaround times and boosting team productivity. Currently working to create Graphic Design packages for clients including Logos, Brochures, Business Cards, Flyers, Folders, Presentations, Motion Graphics & more, using this new XM framework.

UX/Graphic Designer Self Employed - Freelance

2015-Present

Created Graphic Design packages, Motion Graphics, and Cover Art for music producers, record labels, and various other clients. Currently designing and building website for The Virtual Reality Show, an industry leading VTuber, with a team of talented individuals including Adobe featured visual artist Lumi, and Monstercat music producer Protostar.

Motion Graphics Artist Tasty Network - Contract

2019

Navigated creative direction and production of VJ Loops for the Tasty Network panel at ADE (Amsterdam Dance event). Personally animated 20+ cyberpunk style loops using Cinema 4D, Octane Render, and After Effects.

Skills
